Product Description

High Quality ACE 031 Peptide Vials For Supply CAS 616204-22-9

Product Description

Product Name	Ace031
Specification	5mg
Appearance	White Powder
Storage	In cool and dry place
MOQ	1 kit

ACE/031 is an investigational protein therapeutic that builds muscle and increases strength by inhibiting molecules that bind to and signal through a cell surface receptor called Activin Receptor Type IIB (ActRIIB).
It is a recombinant fusion protein that is produced by joining a portion of the human ActRIIB receptor to a portion of a human antibody.
